

USER MANUAL

Torq CRM

Lead Management & Sales Console

How to use the application day to day

Version 1.0 | 22 Jul 2026

For Sales, Marketing, Managers & Administrators

Table of Contents

1. Getting Started — Login
2. Roles & Access
3. Dashboard (Lead Console)
4. Leads — My Leads & All Leads
5. Lead Detail — Activity & Actions
6. Followups — My & All
7. Customers, Companies & Products
8. Quotations & Quotation Terms
9. Tasks
10. Administration
11. IndiaMART Sync
12. Quick Tips & Troubleshooting

1. Getting Started — Login

Open the Torq CRM URL provided by your company (example: your server `/login` page).

Steps

1. Enter **Email, Username, or Mobile**.
2. Enter your **Password**.
3. Optional: tick **Remember Me**.
4. Click **Sign In**.

After login you land on the **Dashboard** (if you have dashboard permission).

Use the top-right user menu for **Profile, Dashboard, or Sign Out**.

Forgot password? Use **Forgot Password** on the login screen and follow the email reset link.

2. Roles & Access

What you see depends on your role. Menus appear only if you have permission.

Role	Typical access
Super Admin	Full access — Operations + Administration (users, roles, permissions, company settings).
Admin	Almost full access. Same as Super Admin except cannot delete roles.
Manager	Leads, Followups, Customers, Companies, Products, Quotations, Tasks. Can see All records. No Administration menu.
Marketing	Leads, Followups, Customers, Quotations, Tasks (as permitted). Focused on My assigned work. No Administration menu.

My vs All: *My Leads / My Followups* show only records assigned to you. *All Leads / All Followups* show the wider team list (as allowed by your role).

3. Dashboard (Lead Console)

Path: Sidebar → **Dashboard**

Use the dashboard for a quick health check of today's pipeline.

Stat cards

Card	Meaning
Today's Lead	Leads created today.
Open Lead	Active pipeline (not Won / Lost / Junk / Duplicate).
Contacted Lead	Leads currently in Contacted status.

34, Vishala Estate, S.P. Ring Road, Opp. Odhav to Nikol Road, Nikol, Ahmedabad, Gujarat, 382350

Card	Meaning
Today's Rejected Lead	Leads marked Lost today.
Today's Lead Followup	Open leads with follow-up due today.
Overdue Lead Followup	Open leads whose follow-up date is past.
Unassigned Lead	Open leads with no assignee.

Below the cards you will see revenue / conversion metrics and charts (sources, monthly trend, operational health).

Dashboard **Sync Leads** refreshes console stats. To pull IndiaMART enquiries, use **Sync** on the Leads page.

4. Leads — My Leads & All Leads

Path: Sidebar → **Leads** → **My Leads** or **All Leads**

- **My Leads** — only leads assigned to you.
- **All Leads** — all leads you are allowed to see.

List features

- Search by lead number, customer, company, mobile, email.
- Filter by date range, status, source.
- Sort columns; paginate results.
- Click the eye icon to open lead detail.

Create a lead

1. Click **Create Lead**.
2. Fill Customer Name (required), company, mobile, email, source, assignee, requirement.
3. Save. A lead number is generated automatically (example: LD-000123).

Lead statuses

New → Assigned → Contacted → Interested → Follow Up → Quotation Sent → Negotiation → Won / Lost / Junk / Duplicate

5. Lead Detail — Activity & Actions

Path: open any lead (example URL `/leads/700`)

Top summary shows Status, Priority, Assigned, Mobile, Source, and Requirement.

Activity Timeline

Column view of history:

- Date & Time
- Activity (Call, Meeting, Email, WhatsApp, SMS, Status Changed, Assigned, etc.)
- Description / notes
- Action By

Newest activity appears first.

Record Lead Action

At the bottom of the page, use **Record Lead Action** to log work:

Field	How to use
Action Type	Call, Meeting, Email, WhatsApp, or SMS.
Lead Status	Update pipeline stage.

34, Vishala Estate, S.P. Ring Road, Opp. Odhav to Nikol Road, Nikol, Ahmedabad, Gujarat, 382350

Field	How to use
Assign To	Admin: choose user from dropdown. Other users: shows assigned name. If unassigned, first submit assigns the lead to you.
Next Follow-up	Optional date/time for the next touch.
Action Notes	Required — write what was discussed and next steps.

Click **Save Activity**. The system saves the note, updates status/follow-up, creates timeline entry, and refreshes the page.

6. Followups — My & All

Path: Sidebar → **Followups** → **My Followups** or **All Followups**

- Shows leads that have a **Next Followup Date**.
- Sorted by next follow-up date (latest first by default).
- Filter by follow-up date range, status, source, and search.
- Open the lead to record the next activity.

Use this menu every morning to clear overdue and today's follow-ups.

7. Customers, Companies & Products

Customers

Sidebar → **Customers**. Search, filter Active/Inactive, add/edit customer details (name, mobile, email, company, status).

Companies

Sidebar → **Companies**. Maintain company name, phone, email, GST, city, state, active flag.

Products

Sidebar → **Products**. Maintain catalogue: name, SKU, category, unit, price, tax %, HSN, and related fields used in quotations.

8. Quotations & Quotation Terms

Quotations

- Create and manage quotes linked to customers/leads.
- Statuses commonly include Draft, Sent, Accepted, Rejected, Expired.
- From quotation detail you can open or download **PDF**.

Quotation Terms

Maintain reusable Terms & Conditions templates for quotations (default/active templates).

9. Tasks

Path: Sidebar → **Tasks** (also available from header shortcut).

- Create tasks with title, description, assignee, customer, priority, due date.
- Update status (e.g. Pending → Completed).
- Filter/search your task list.

10. Administration

Visible only to **Super Admin** and **Admin**.

Menu	Purpose
Users	Create/edit users, assign roles, activate/deactivate accounts.
Roles	Define roles and attach permissions.
Permissions	Browse permission groups; sync registry when needed.
Company Profile	Company name, logo, address, quotation defaults/signatory.
Settings	Personal profile and password (under user menu / Settings).

11. IndiaMART Sync

Path: **Leads** page → toolbar **Sync**

1. Open My Leads or All Leads.
2. Click **Sync**.
3. Wait for the success message (inserted vs skipped/already existing).
4. Refresh the list if needed.

New IndiaMART enquiries become CRM leads and can be assigned and worked through the lead action form.

12. Quick Tips & Troubleshooting

Situation	What to do
I cannot see a menu	Ask Admin to grant the related permission / role.
I cannot edit a lead	Usually you can edit only leads assigned to you (unless Manager/Admin).
Unassigned lead	Open lead → Save Activity. Non-admin users get auto-assigned on first action.
Followup missing in list	Lead must have a Next Followup Date set from lead action/edit.
Sync did nothing	Check IndiaMART source connectivity with Admin; review success toast for skipped count.
Password forgotten	Use Forgot Password on login, or ask Admin to reset.

Daily recommended flow: Dashboard → My Followups (overdue + today) → Open lead → Record Action → Update next follow-up → Check My Leads for new/unworked items.
